PROFESSIONAL SUMMARY

Java Full Stack Developer with a B.E. in Computer Science and Engineering and hands-on experience building RESTful APIs and full-stack web applications using Java, Spring Boot, Spring Data JPA, MySQL, and JavaScript. Completed Zoho (ZSGS) technical training in Advanced Java, data structures and algorithms, multithreading, and debugging. Skilled in RBAC, JWT, N-tier architecture, JUnit 5, Mockito, Docker, and Git. Solved 150+ LeetCode problems in Java. Available for immediate joining.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Backend: Spring Boot, Spring Data JPA, Spring Security, Hibernate/JPA, JDBC, RESTful APIs, Maven, Multithreading
Frontend: HTML5, CSS3, JavaScript, DOM Manipulation, Fetch API, CORS, Single-Page Applications (SPA)
Databases: MySQL, Redis, Relational Database Design, Database Normalization
Security: RBAC, JWT, BCrypt, SHA-256 Hashing, Authentication and Authorization
Architecture: OOP, MVC, MVP, N-tier Architecture, DTO Pattern, REST API Design
Testing: JUnit 5, Mockito, Unit Testing, Mocking
Tools: Git, GitHub, Docker, Linux (Ubuntu), Bash Scripting, Postman, MySQL Workbench

TECHNICAL TRAINING EXPERIENCE

Technical Trainee – Java Full Stack Development, Zoho Corporation (ZSGS) | *Jan 2026 – Jun 2026*

- Completed intensive training in **Advanced Java**, data structures and algorithms, and application development.
- Developed and integrated **RESTful APIs** using **N-tier architecture**; applied debugging, root-cause analysis, and **thread-safe programming** in multithreaded projects.
- Used **Docker** environments and **Git** branching strategies; prepared documentation for architecture, workflows, and REST API endpoints.

PROJECTS

GMart – Inventory and Billing Management System | *Full-Stack Project, May 2026*
Technologies: Java, Spring Boot, Spring Data JPA, MySQL, JavaScript, HTML5, CSS3, Maven, Docker

- Built a **Spring Boot REST API** backend with a decoupled JavaScript single-page application frontend.
- Implemented **role-based access control (RBAC)** supporting four organizational roles, with backend authorization and custom routing.
- Designed a normalized **MySQL** database with six **JPA entities**, covering relationships, transactional integrity, and automated stock timestamp updates.
- Containerized the application and MySQL database with **Docker** using separate networked containers.

SIET Placement Management System | *Academic Project, Mar 2026 – May 2026*
Technologies: Java, MySQL, JDBC, MVP Architecture, DTO Pattern

- Developed a console-based placement application with Student and Faculty portals using **MVP architecture** and the DTO pattern.
- Integrated **MySQL** via **JDBC** with automatic table initialization; debugged query and data consistency issues.

Redis Cluster Lifecycle Architecture | *Personal Project*
Technologies: Redis, Docker, Bash Scripting, Linux (Ubuntu)

- Configured a **Redis Cluster** for sharding, hash-slot allocation, and master-replica replication; automated setup with **Bash** scripts.
- Tested failover with simulated master failures, replica promotion, and rebalancing using **Docker** volumes and isolated networks.

Bank ATM Simulator | *Personal Project, Mar 2026*

- Built a browser-based ATM simulator (**HTML5, CSS3, JavaScript**) with PIN verification, withdrawals, and balance inquiries using OOP and DOM manipulation.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering | Oct 2021 – May 2025 | CGPA: 7.19 / 10.0
Sri Shakthi Institute of Engineering and Technology, Coimbatore, Tamil Nadu (Anna University Affiliated)

CERTIFICATIONS

Oracle Java Foundations – Oracle | Java Programming Masterclass | HTML5, CSS3 and JavaScript for Beginners | SQL Intermediate and Basic

PROBLEM SOLVING AND ADDITIONAL INFORMATION

- **LeetCode:** 150+ DSA problems solved in Java (arrays, strings, hash maps, recursion, dynamic programming); LeetCode biweekly contest participant. **GitHub:** 200+ commits.
- **Languages:** Tamil (Native), English (Professional) | **Availability:** Immediate joining; open to relocation and remote work.
